A Precinct Primary.

It is settled that Richmond's delegates to the State Democratic Convention shall be chosen at a primary election; also, that the voting shall be viva roce. The next thing to be done is to fix the day

nd distribute the delegates, and the question is, Shall they be apportioned by wards or by precincts? In the last congressional contest the pre-

cinct plan was adopted and with general patisfaction. The chief difference between then and now is that the delegates were then elected at precinct meetings, and now we are to have a primary-a precinct primary, we trust. The precinct is the unit of division in a

city. Delegates from precincts will go straight from the homes of the people. A man who is popular with his neighbors and who is known to represent their sentiments will have only to announce himself to be elected. He need not work for the honor as he would have to work to secure supporters in all the precincts. In other words, it gives the humble man as well as the well-known man a chance to go to the convention. Richmond's experience less than two

ears ago justifies the City Committee in adopting for this occasion the precinct We here in Richmond are at liberty to

adopt any plan that strikes us as promising the best results. We are not bound to foilow the usages of other cities, and, indeed in several gubernatorial contests we elected under a percentage system that obtained nowhere else, and we never had cause to repent that course. In the present con-test some counties have chosen delegates by mass-meetings, others by county conventions, and others still by district meetings. Some of the cities have elected by ward meetings, and others by primaries.

Our committee has full latitude in making its choice, and if it wishes a comlete plan for reaching and interesting he people and ascertaining their wishes they will resolve that at the primary election soon to be held each precinct shall elect its own delegates to the State con-

A Suggestion to the Convention. AMHERST COUNTY, April 26, 1892. To the Editor of the Dispatch :

In view of the situation in Virginia, would it not be well for the convention to assemble in Richmond on the 19th of May to confer upon the the presidential electors and the district and county canvassers? What the Chicago platform Democratic party will contain no on can tell, and it will be illogical to appoint advo-

Once announced, let us select men for its ad-poentes who are of its faith, and who will be repared to discuss with vigor the economic testions which it will present to the public.

This suggestion comes from one of the premost and one of the purest of the public men of Virginia.

We doubt, however, if the convention will care to delegate this work to a com-

mittee. We think that in case a postpone ment seems desirable the convention ould sooner think of adjourning until the Chicago convention had been heard from, and then reassemble here to appoin electors and canvassers, than to clothe the State Committee with the proposed pow-

The Private in the Ranks. We trust that Chairman Jup Wood, of

the City Democratic Committee, will not renew his proposition to tax the candition to pay the expenses of the primary election, which by common consent has been ordered.

Three or four dollars is not much money to a rich man, but it is a good deal to me chanics and day laborers, many of whom we hope to see sent to the convention. This is one of the occasions when the private in the ranks of the Democratic

party can hope to have an honor bestowed upon him, and if you undertake to tax him for the privilege he may resent it. The money for the primary should be raised from the public, and that it can be

thus secured there is no doubt at all, since, as we understand, two or three public-spirited gentlemen have guaranteed that it shall be forthcoming.

Give the private soldier a chance.

The Counties-

Still the counties are electing "unin-structed delegates." There are some ex-ceptions, of course, but this is the rule. This does not look as if the Democratic people of Virginia are convinced that there is but one suitable candidate for the presidential nomination. On the contrary, it shows that they regard the situation as serious and that they have "frequent misgivings," and that they wish their repre-sentatives to study the aspect of national affairs calmly and soberly before committing themselves to any important

Mr. CLEVELAND's friends in the country ere being strenuously warned against "uninstructed delegates," but results go to show one of two things—either that they are not so numerous as may be supposed by some persons, or that they are disinclined to take the advice in ques-

Ravachol the Anarchist.

manner in which RAVACHOL bor himself in court seemed more like the conduct of a crazy fanatic than like the conduct of a man having good sense. However, the Parisian authorities know just what he has done and just what ought to be done to him. His craziness—if he wishes foolhardiness to be mistaken for craziness—is of a kind that cannot be tolecraziness—is of a kind that cannot be tolerated in a civilized community. He seems to know that he has committed an unpardonable offence and to feel that, as his fate is already fixed, his doom sealed, and his and near, he might as well face it out as if he were proud of being an assassin.

Ravacuor is an avowed enemy of law and order; also, of religion and of all governments. In fact, he might be compared to a ferucione wild beast.

The Pure-Food Bill. The bill of Mr. Pappoor, of Neb

grief in the House of Representatives. Our esteemed contemporaries of the New York Sun and the Baltimore Sun represent it to be a specimen of paternal legislation which ought not to be tolerated, and the provisions of the bill seem to indicate that our congressmen ought at least to think twice before they pass it.

Mr. WILLIAM C. TAYLOR, of Barton ess that had unfitted him for work for two years, will be remembered by his newspaper brethren as a companionable gentleman and tireless worker. In him the journalistic faculty was well devel-oped. He knew what news was; he was quick to get it, and he wrote it up with surprising rapidity. His services were valuable wherever he was employed, and he was devoted to his family, faithful to his friends, and helpful to all who had any claim upon his consideration.

General Manors is getting the credit of having had Mr. Asser appointed to the United States consulate at Colon, but we seriously doubt if he deserves it.

Our information is that Mr. Ashny owes his appointment more to Colonel James D. Brant than to any one else, though General GRONER and Mr. Bowden no doubt ren-

dered valuable assistance.

The office is worth \$5,000 per annum, but the climate is inhospitable, not to say

Montgomery county has called into her ervice as one of her delegates to the State convention her favorite son, Hon. WALLER R. STAPLES, and has given him as the majornty of his associates men who are of his way of thinking with reference to the emocratic presidential nomination.

It is wonderful how often "the HILL boom"-that is to say, people's pre-terences for some other candidate than CLEVELAND-has been "killed and buried," and how serenely it reappears and enlists the cheerful support of thousands of the best Democrats in the land.

The Richmond convention will be com posed for the most part of uninstructed delegates. The returns indicate this, The word has gone out for the friends of Mr. CLEVELAND to oppose the "uninstructed" plan, but it will not succeed.

A Philadelphia paper states significantly that the furnishing of electric lights is evi-dently a profitable business, and says there is no good reason why any city should not have its own electric-light

Judging from the results in Lynchburg and Alexandria, we should say that the primary-election plan of electing delegates to the State convention is a success.

CLEVELAND and HILL are doing very well indeed, but "uninstructed" leads in the race and will win it.

CLINTWOOD, Va., April 25.—The trial of Schofield Kiser for the murder of Aaron Gibson about the year ago hat just closed. It has been the most remarkable trial ever witnessed in this county. The evidence has been voluminous, and the best legal talout of this and the adjoining counties was employed. The case was given to the jury without any instructions from the court. The foreman handed in the verdiet, and the clerk read in a clear, distinct volce: "We, the jury, find the defendant not guilty." Everybody is surprised at this verdiet and the jury is being severely criticised.

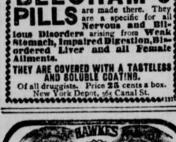

Rev. James Hill, of the Methodist Episcopal Church, died at his son's, near this place, a day or two since, at an extreme old age. He had been in the ministerial service for some thirty or forty years. He was beloved by all, and his memory will not soon die.

Matthew Perry, a farmer of George's Fork, this county, died recently of fever.

Let's reason together.

Here's a firm, one of the largest the country over, the world over; it has grown, step by step, through many years to greatness.

This firm pays the newspapers good money (expensive work, this advertising!) to tell the people that they have faith in what they sell, so much faith that if they can't benefit or cure they don't want your money.

Dr. Pierce's Golden Medical Discovery is sold on this liberal plan. If it doesn't benefit or cure, it costs nothing. It cures Skin, Soalp and Scrofulous affections, as Eczens, Tetter, Salt-rheum, Fever-sores, White Swellings, Hip-joint disease and kindred ailments.

It's the chapest blood-purifier sold, through druggists, no matter how many hundred doses are offered for its price (\$1.00 a bottle), since you pay only for the good you get. Can you sak more!
